

Dr. GuanYing Cao, Associate professor, Master's advisor.

1992.07, Bachelor's degree in Vacuum Technology in Northeastern University;

1995.07, Master's degree in Vacuum Engineering in Northeastern University;

2005.06, Doctor' degree in Physical Electronics from Fudan University

2009.08-2010.08, postdoctoral research at the University of Washington in the United States

1、 Main research direction: new light source and lighting energy saving;Design and evaluation of lighting environment;Nano and energy new materials, etc.

2、 Enrolled master's degree subject: Optical Engineering

3 、 Current major courses: <electric light source principle>;<Vacuum technology>;<Lighting design>;<Professional English> , etc

4、 Postgraduate students guided: 3 graduated , 4 on study.

5、 Research projects: To participate in the national and provincial research projects of more than 20.

6、 Published papers: more than 50 academic papers were published, of 9 which were indexed in SCI, and 8 in EI.

Mobil: 13889477156
