

Teacher information				
Full Name	LIU Guojun	Gender	Male	
Professional Title	Associate professor	Academic Degree	Graduate	
Telephone	0411-86323452	E-mai	lgjzgx@163.com	
Address	School of Testile and Material Engineering, Dalian Polytechnic University	Code	116034	

Personal details:

Male, associate professor, born in May 1972, master's master's tutor, master of science and technology in dalian city. In July 2003, he graduated from the chemistry and chemical engineering school of sun yat-sen university with a degree in polymer chemistry and physics.

Research field:

Functional polymer materials, Polymer synthesis and water-based coatings and adhesives. In the past five years, responsible for 2 provincial education department projects and 4 horizontal projects. Participated in the national "863" program project. Published more than 40 papers and authorized 6 patents.

Representative papers:

1. Guojun Liu Jialin, Gong, Guixia Zhang, et al. Effect of polymeric emulsifier and thewire of soft/hard monomer on the property of acrylic emulsion as fabric stiffening agent [J]. Advanced Materials Research. 2013821-822:287-294
2. Guojun Liu, Jinyan Yang, Guixia Zhang, et al. Preparation and Characterization of Nanocapsulated Paraffin Wax by Interfacial Miniemulsion Polymerization Based on Phase Inversion Emulsification [J]. Polymer Materials Science & Engineering, 2017, 33 (3) : 12-17

Rewards:

1. 2012-2013 (1) teaching evaluation excellence award, 2013
2. Organic silicon modified acrylate wood paint emulsion and its synthesis method, science and technology progress award of dalian city, third prize, 2013
